WING TIP

Anderssen & Voll | 2022

Who wouldn't want to be embraced like this, as if in flight, with those swallow-wing armrests that evoke the sky and lightness? Who but Anderssen&Voll could give shape to our desire to relax before a trip or a meeting? Together with the Norwegian duo, we have created the WING TIP lounge chair. With its elegant and discreet volumes, it's also ideal for waiting at an airport, in a museum, restaurant, office or home. And to live on our planet with respect and foresight, we have created WING TIP based on the principles of sustainability, from its shell made of a single recyclable material to its upholstery, without the use of glues, which envelops and protects. If we continue like this, swallows will always come back to see us

WING TIP

Anderssen & Voll | 2022

| S286 footrest upholstered with star-shaped metal base

Footstool with internal metal frame, upholstered with re-retardant moulded polyurethane foam and covered with fabric, soft leather or eco-leather. Star base in sandblasted aluminium or powder coated. Glides in polythene.

use and maintenance instructions
Clean all parts in wood, leather, fabric and metal with a damp cloth or a diluted neutral cleaner. Do not use cleaners with alcohol, bleach, solvent or abrasive products. Any liquid spilt on the product must be wiped up immediately.When lifting or moving the product, hold it on the structure and not under the seat. The product should not be subjected to unbalanced weights, as it is designed for a proper rest on the foothold (on four legs or on the base). Our company relieves from any responsibility in case of damage caused to fragile floors. Avoid any improper use of the product: do not step on the product, on the footrest or on the armrests. Avoid any movements that could compromise the proper functionality of the product or the safety of the users.Wood and leather, being natural materials, could be easily damaged. Small impurities or imperfections are within quality standard range.Do not expose the product to weather conditions or atmospheric agents, nor to heat sources over 40°C. Also products for outdoor use could be afflicted by atmospheric agents. The product could undergo possible exterior changes due to particular exposure to heat, humidity and saltiness. An appropriate and frequent maintenance and cleaning of the product enhances its durability. The product could change colour and shade, if exposed to direct sunlight. Maintenance has to be carried out by experienced staff. Dispose of the package only after assembling the product, in order to avoid the loss of ironmongery and components. Once the product has been dismantled, the product itself or its components must be given to the public garbage disposal system, according to the legislation in force.
