

The Lounge Chair

FSC® certified wood

The Lounge chair builds on High Stool's beautifully fluid, sculptural and archetypal character. The backrest and seat are larger and generously rounded for a heightened sense of comfort. The seat and backrest are upholstered in a soft, durable leather and are fully supportive and comfortable so that it outweighs the need for armrests. Durable for both private and public use.

Mater Sustainability Factsheet

Leather

Leather is a natural material. And at Mater, we believe it will only get more beautiful with age and daily usage. However, like all natural materials, it requires looking after to ensure its long-lasting appeal.

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Contact our customer service for more info [here](#)

FSC® Certified wood

From the outset, our ambition has been to use FSC-certified wood in our production. This is now implemented with small exceptions. In an FSC® certified forest, no more trees than the forest can reproduce are felled, so the exploitation of nature is avoided.

Find our FSC® Certificate [here](#)

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.
