

ROWS

Patricia Urquiola, 2023

The Rows Collection expresses, in its minimal geometry, a refined artistic memory. It is distinguished by the presence, on the bases of the tables, of workmanship at once formal and decorative inspired by the still lifes of Amédée Ozenfant, founder in 1918 of the Purist movement.

In terms of aesthetics and expressiveness of form, the tables in the collection evoke suggestions that reach from Deco to the rationalism of the 1930s.

TECHNICAL INFORMATION

STRUCTURE

MDF panels, milled and veneered in oak using a membrane press to maintain the natural continuity of the wood grain.
For the available finishes, see page 6.

TABLETOP OPTIONS

Three different top versions are available: marble with a rounded edge, back-painted glass (both options featuring also a black-painted MDF underlay for securing to the base) and oak veneer.
For the available finishes, see pages 7-9.

VERTICAL ROUND TABLE

BASE

Hexagonal-shaped central base. According to the diameter of the top, the base is designed in two sizes, with 6 or 7 vertical milled grooves per side.

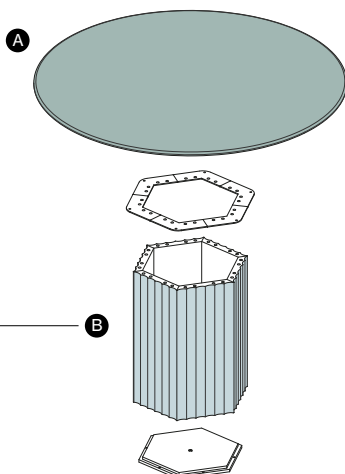

TABLETOP

The top, available in diameters of 59" or 71", **is available exclusively in the marble version** with a black-painted MDF sub-top.

LAZY SUSAN

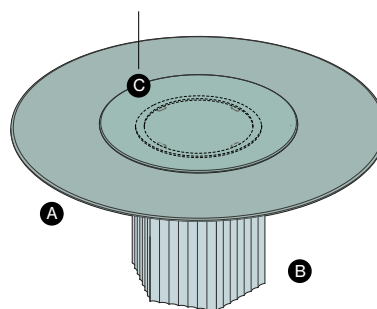

On the 71" diameter table, it is possible to place a Lazy Susan top made from the same type of marble chosen for the tabletop. It is equipped with a rotating base that, resting on metal spheres, allows the top to rotate smoothly and effortlessly.

Round marble top, available in two sizes, with a black lacquered MDF sub-top, to be secured with plates.

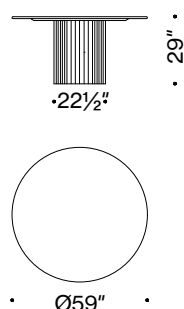

Base in oak-veneered MDF with 6 or 7 vertical milled grooves per side, depending on the size of the tabletop.

Lazy Susan round marble top with a rotating mechanism, optional for the 180 cm diameter tabletop only.

MARBLE TOP**MAINTENANCE AND CLEANING****General warnings**

In order to preserve the beauty and characteristics of marble surfaces, avoid contact with products containing acidic or limescale-removing substances, such as: vinegar, oil, red wine, cola, or citric acid - contained in citrus fruits and tomatoes - personal care products - such as whitening toothpaste, perfumes, aftershaves - cleaning products containing acidic or limescale-removing chemicals, as well as undiluted degreasers.

Avoid scratching the surfaces in any way: do not clean with heavy mechanical scrubbing tools - such as abrasive nylon or metal brushes - avoid contact with any sharp tool, do not place furniture accessories on the surface without protective felt pads, do not apply excessive force or sudden pressure to the surfaces.

If acidic, aggressive, or corrosive substances are accidentally spilled, they should be removed immediately while still fresh, using a soft cloth, followed by thorough rinsing with water. Avoid using abrasive sponges or tools.

Routine cleaning

- Before washing marble surfaces, it is recommended to remove dust and dirt using a vacuum cleaner with a soft-bristle brush, antistatic cloths, sponges, or soft cloths.
- To help maintaining the marble's shine, clean surfaces with preferably warm or hot (not boiling) water.
- Use specific marble cleaners or neutral soaps: neutral soap acts as a degreaser and antibacterial agent while enhancing the surface's shine without affecting it.
- Diluted denatured alcohol is allowed (2 tablespoons per liter of water), but do not use undiluted alcohol, as excessive degreasing may dull the marble's finish.
- To further preserve surface gloss, occasional use of specific marble waxes is recommended, followed by polishing with a soft-bristle polisher.

FINISHES: for any doubts or further information regarding care and cleaning, please contact your Moroso representative.

DISPOSAL: in order to respect the environment, it is recommended, at the end of the product's life, to separate the various component parts as much as possible and follow the respective recycling, recovery or disposal procedures in accordance with the regulations in force in the countries concerned.
