

Bellhop Glass C2

Designed by Edward Barber and Jay Osgerby, 2025

Halogen

Ceiling-mounted lamp emitting diffused light. Features a triplex opaline glass diffuser formed from three simultaneously blown layers of variable thickness. Lower opening protected by an aluminium ring to shield the bulb from direct view and create accent lighting on the surfaces below the lamp.

One of Edward Barber and Jay Osgerby's most iconic designs for Flos, Bellhop has evolved from a playful portable lamp into a full family of light. Bellhop Glass reimagines the archetype in triplex opaline glass and metal, materials that give the lamp greater scale, substance and atmosphere. The mouth-blown diffuser allows the entire surface to glow with even warmth. Table, ceiling and suspension versions transform the youthful spirit of the original into a more architectural presence, while evoking the intimacy of candlelight that first inspired the design.
