

Sedona

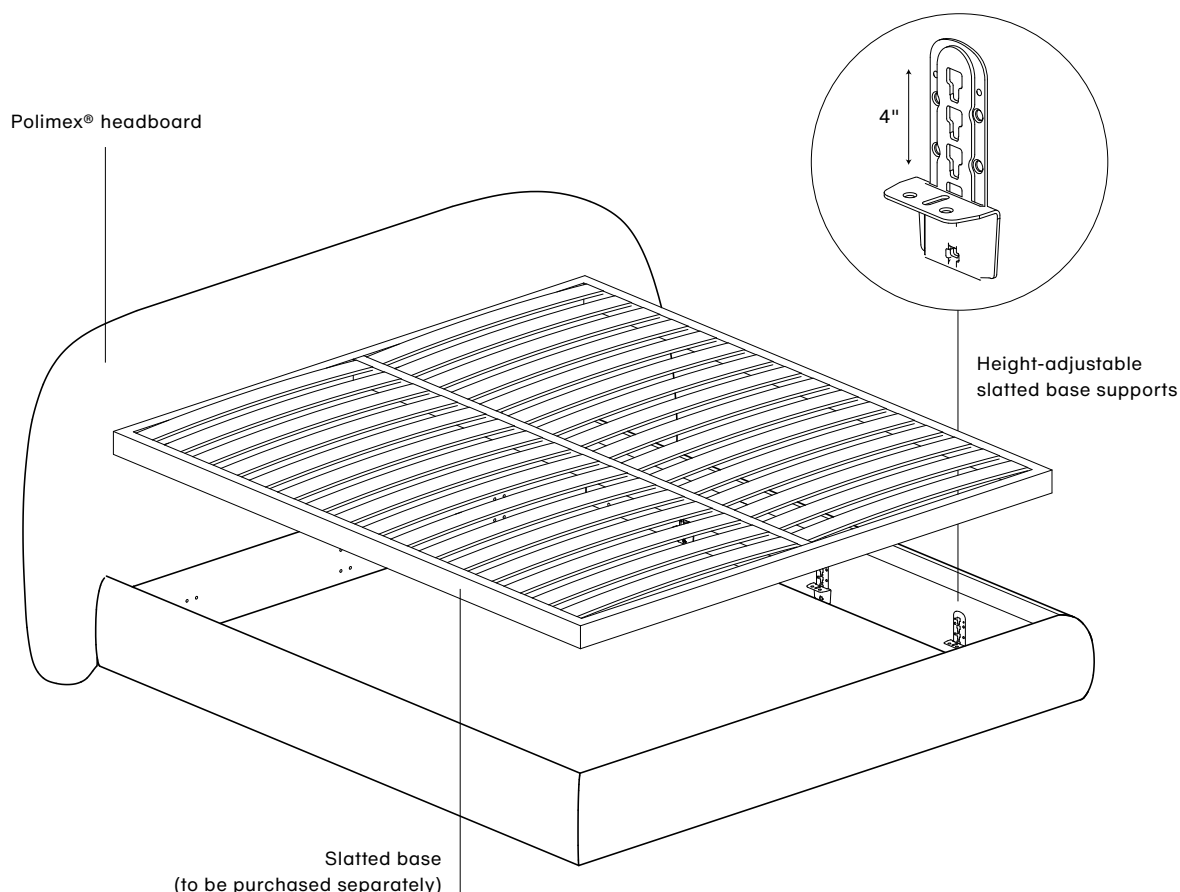

Patricia Urquiola, 2025

The Sedona collection takes its name from the small American town tucked away among the mysterious red rock mountains and majestic forests on the edge of the Arizona desert. A bed, a bench and an ottoman with generous shapes inspired by the natural beauty of the region, the canyons carved by the erosive force of wind and water.

Voluminous shapes, softened by the absence of edges, and at the same time vital, surprising us with a visual lightness capable of creating an intimate and welcoming environment.

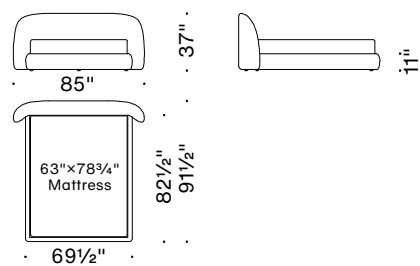

Headboard	Polimex [®] core with soft polyurethane inserts. Polyester inner lining.
Polimex [®]	It's a composite material for supporting structures of upholstered furniture consisting mainly of expanded polystyrene and, in smaller percentages, structural polyurethanes, which provide structural resistance. It is significantly lighter than traditional frame systems and requires less foam or padding to achieve the final shape, reducing overall material consumption. Certified as Class 1-IM.
Bed frame	Multilayer wooden panels with soft polyurethane padding. Black lacquered steel corner supports. Polypropylene feet and adjustable-height central support for the mattress slats.
Bench and ottoman	Molded flexible polyurethane structure with an internal steel reinforcement.
Upholstery	The Sedona collection features fully removable covers. For the recommended fabrics see the table on pages 5-8.
