

Biagio

Designed by Tobia Scarpa, 1968

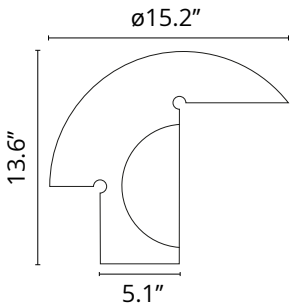

Halogen - 75W

Table lamp emitting direct light. Lamp body carved from a single block of Carrara marble with a hollowed-out space to house the light source. Each lamp features unique marble veining.

Carved seamlessly from a single block of Carrara marble, Biagio by Tobia Scarpa has been a design icon since its debut in 1968. Its sculptural form defies the weight of stone, creating a striking interplay between mass and void. The polished surface enhances the natural veining, ensuring each piece is unique. A reflection of Scarpa's design philosophy, where craftsmanship and materiality are inseparable, Biagio remains a testament to Flos's pioneering approach to materials and innovation.
