

Taraxacum 1

Designed by Achille and Pier Giacomo Castiglioni, 1960

Halogen - 100W

Suspension lamp emitting diffused light from within a white powder-coated steel structure sprayed with a unique Cocoon resin to form the diffuser and protected with a transparent spray finish.

Named after the humble dandelion plant, Taraxacum was designed in 1960 by Achille and Pier Giacomo Castiglioni. It features the signature Cocoon technique, in which a steel frame is sprayed with a soft, web-like resin. The duo began experimenting with this method in the 1950s after discovering its use in industrial applications. The result is a delicate yet durable surface that diffuses a warm, ambient glow.
