

TROPICALIA

Patricia Urquiola, 2008

In the Tropicalia collection, the turn of the wire is similar to a pencil stroke, marking a surface that is simultaneously graphic and structural, becoming simultaneously a constructive gesture and a form of identity.

The structure, in stainless steel or painted, is suitable for outdoor use.

TROPICALIA

Patricia Urquiola, 2008

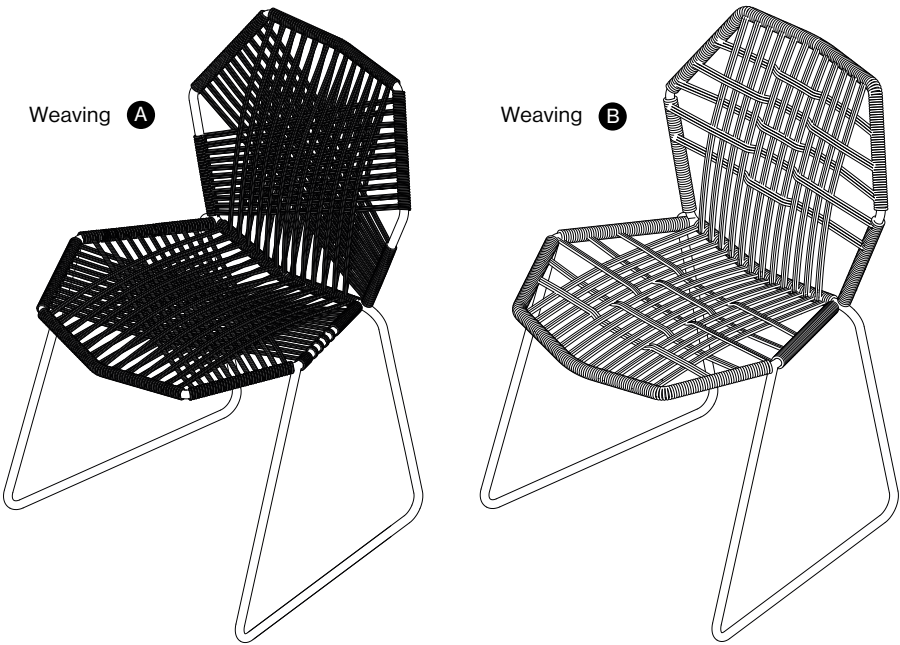

TECHNICAL INFORMATION

STRUCTURE

Stainless steel or varnished tubular frame, Ø14 cm, suitable for outdoor use.
Transparent PVC glides screwed to the structure.
For finish variants, see the table on page 21.

WEAVING

PVC threads woven in two different weaving patterns, diagonal or perpendicular, available depending on the color variants selected.
See the table on pages 6-20.
