

CHANDELIER – OVAL

David Chipperfield

The Chandelier family by David Chipperfield blends architectural purity with contemporary elegance.

Chandelier Oval brings a new geometry to the collection: a softer, more graceful shape available in two sizes. Its elliptical silhouette naturally complements dining areas, counters, and elongated rooms. Offered in black, gold, and cortina finishes, it adds a refined and contemporary signature to the family.

CHANDELIER - OVAL - BLACK, Ø 78.7" + 19.7"
