

Bouquet

Tokujin Yoshioka, 2008

Bouquet is an upholstered armchair of elegant conception, a tribute to beauty that, in the simplicity of the repeated gesture, touches on the spiritual dimension. The dress, composed of fabric squares folded by hand and sewn one by one with expert care and infinite patience, envelops the seat until it is entirely covered with soft petals.

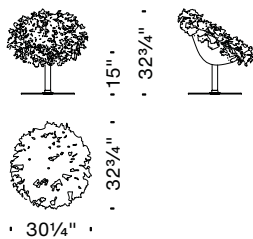

An allegory of dreams, a refined poetic transposition celebrated in the materiality inherent in the industrial object, the armchair makes happy the one who sits in it, just as a bouquet of flowers gratifies the one who receives it.

Structure	Moulded polyurethane foam with an internal steel frame and polyester lining.
Base	Swivel structure in powder-coated steel.
Seat height	38 cm without applied load.
Upholstery	Removable cover in polyester microfiber. Composition: 65% polyester and 35% polyurethane — Price category Y. For available combinations and variants, see pages 4-5.

The Bouquet armchair features a fully removable cover for easy care and maintenance. The cover can be removed by following the assembly and disassembly instructions provided or downloadable from our website. Wash in water at a maximum temperature of 30°C using a delicate cycle and without spin. Before washing, the zipper must be fully closed. Do not use bleach or tumble dry; allow the cover to dry naturally away from direct heat sources.

Routine cleaning: for routine care, the cover can be dusted and refreshed by gently airing and shaking it after opening the zipper. Once cleaning is complete, refit and secure the cover correctly using the Velcro strip inside the seat, following the assembly instructions in reverse order.
