Glo-Ball Floor 3

Designed by Jasper Morrison, 1998

Halogen - 150W

Floor lamp emitting diffused light. Features a diffuser made of externally acid-etched, hand-blown, flashed opaline glass with a die-cast, alodine-plated threaded ring nut. Painted high-thickness steel base and stem with a die-cast aluminium diffuser support. Equipped with an electronic dimmer on the power cable for 0–100% light adjustment.

Part of the Glo-Ball series by English designer Jasper Morrison, first designed in 1998 to evoke the quiet radiance of a full moon and the otherworldly magic of the night. With its soft, spherical form, Glo-Ball Floor maximises the diffusion of light, casting an even, ambient glow across the room. The design aligns with Morrison’s Super Normal philosophy of creating understated yet refined forms to enhance everyday spaces. Glo-Ball is part of the permanent collection at MoMA.
