

Redondo

Patricia Urquiola, 2018

Redondo is inspired by the upholstered interiors of American cars of the 1950s and 1960s and the on-the-road comfort that accompanied travelers on long journeys between the East and West Coasts. The shape comes from the juxtaposition of a shell that wraps large seat cushions in continuity. Curved forms enhanced by the absence of edges and the softness of the fabric, embellished with an embroidered decoration where the thread, like a pencil, marks an elegant three-dimensional geometry.

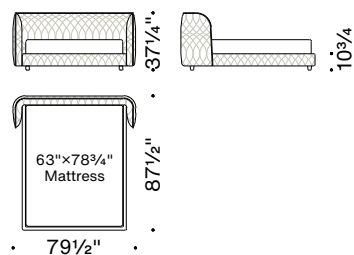

Headboard	Structure in wood and wood-based materials, with flexible polyurethane foam.
Bed frame	Structure in multilayer wood, with flexible polyurethane foam.
Feet	Made of polypropylene, 2¾" in height.
Upholstery	The Redondo bed features fully removable covers. For the recommended fabrics see the table on pages 5-6.
