

IO

Claesson Koivisto Rune

In the shape of a small curved lunar disc, IO is a wall light with dual Led light emission. IO appears almost suspended, very close to the wall but never close enough to touch it; positioned at a distance that allows the light to gently caress the wall with an intimate skimming effect.

NOTES

Wall lamp with directional light. Painted metal frame. Thanks to its dual-axis rotation frame, it has the distinguishing feature rotating on both longitudinal and transverse axes, for total light management. The Up/Down movement on the external diffuser widens and narrows the ray of light. Integrated led.
