

ROWS

Patricia Urquiola, 2023

The Rows Collection expresses, in its minimal geometry, a refined artistic memory. It is distinguished by the presence, on the bases of the tables, of workmanship at once formal and decorative inspired by the still lifes of Amédée Ozenfant, founder in 1918 of the Purist movement.

In terms of aesthetics and expressiveness of form, the storage collection evoke suggestions that reach from Deco to the rationalism of the 1930s.

TECHNICAL INFORMATION

STRUCTURE

MDF panels, milled and veneered in oak using a membrane press to maintain the natural continuity of the wood grain.
For the available finishes, see page 10.

TOP

Two different top versions are available, fitted on the underlying MDF structure: marble or back-painted glass, with a 1.5mm 45° beveled edge.
For the available finishes, see pages 11-12.

THREE-DOOR SIDEBOARD

A storage unit with an ideal height for use in dining environments.

MARBLE TOP**MAINTENANCE AND CLEANING****General warnings**

In order to preserve the beauty and characteristics of marble surfaces, avoid contact with products containing acidic or limescale-removing substances, such as: vinegar, oil, red wine, cola, or citric acid - contained in citrus fruits and tomatoes - personal care products - such as whitening toothpaste, perfumes, aftershaves - cleaning products containing acidic or limescale-removing chemicals, as well as undiluted degreasers.

Avoid scratching the surfaces in any way: do not clean with heavy mechanical scrubbing tools - such as abrasive nylon or metal brushes - avoid contact with any sharp tool, do not place furniture accessories on the surface without protective felt pads, do not apply excessive force or sudden pressure to the surfaces.

If acidic, aggressive, or corrosive substances are accidentally spilled, they should be removed immediately while still fresh, using a soft cloth, followed by thorough rinsing with water. Avoid using abrasive sponges or tools.

Routine cleaning

- Before washing marble surfaces, it is recommended to remove dust and dirt using a vacuum cleaner with a soft-bristle brush, antistatic cloths, sponges, or soft cloths.
- To help maintaining the marble's shine, clean surfaces with preferably warm or hot (not boiling) water.
- Use specific marble cleaners or neutral soaps: neutral soap acts as a degreaser and antibacterial agent while enhancing the surface's shine without affecting it.
- Diluted denatured alcohol is allowed (2 tablespoons per liter of water), but do not use undiluted alcohol, as excessive degreasing may dull the marble's finish.
- To further preserve surface gloss, occasional use of specific marble waxes is recommended, followed by polishing with a soft-bristle polisher.
